Let Us Help You!

Taking Stock at Mid-Semester is part of first year support for students at CSU.
It will help you:
1) Reflect on your goals
2) Assess your progress
3) Get feedback
4) Make plans to improve your performance and experience

How Taking Stock Works
1) You will receive an email on September 7th
2) The email will have a link to your Taking Stock portal to take the survey
3) The survey is confidential and you will have instant access to your results
4) Based on the results, your RA will provide you with information on how to connect with campus resources

If you have questions regarding Taking Stock please speak with your RA or contact CASA at 970-491-3658

Connect With Campus Resources

Are you interested in exploring majors or are you having academic difficulties?
